The founder and leader of the Kristo Asafo Mission of Ghana, Apostle Kwadwo Sarfo has declared that he is the most powerful person in Ghana.

Speaking at a ceremony to launch his new inventions, the Apostle mentioned that he is very powerful and that Ghanaians must try to protect him.

He asked Ghanaians not to fear the white man but him rather. He said that though his height and looks does not match to Goliath in the bible, he is more powerful than Goliath.

He reiterated his ability to astral projection every night.

"Every powerful man should be able to meditate to separate his abstract body from his physical body," he said.

He cautioned Ghanaians not to be intimidated by the technological advances of the whites but to rely on him as the hope of Ghana.

Apostle Kwadwo Safo noted that, his ability to astral project, to separate his physical body from his spirit, gives him the wisdom to make the amazing inventions.

He said Ghanaians should not be ashamed of his works but Ghanaians must be proud to have him.

Apostle Kwadwo Safo urged the leaders to make good use of him before he dies or the nation would regret in the future.
